KOBE Range Hoods
Brillia Series

Model No.  OVS-ISX2136SQB-40 (36"
          OVS-ISX2142SQB-40 (42"

INSTALLATION INSTRUCTIONS
AND OPERATION MANUAL
READ BEFORE INSTALLATION
1. Carefully check all contents of packages;
2. Thoroughly inspect the unit for any cosmetic damages or defects;
3. Test the unit before installation;
4. Have a certified contractor/electrician do the installation.

IF THERE IS ANY PROBLEM:
1. DO NOT INSTALL THE UNIT AND KEEP ALL ORIGINAL PACKAGING MATERIAL.
2. Have your original invoice as proof of purchase and product serial number ready.
3. Call 1-877-BUY-KOBE (289-5623); or e-mail to info@koberangehoods.com to report the problem.

NO RETURN, NO REFUND, NO EXCHANGE IF:
1. PRODUCT HAS BEEN INSTALLED
2. KNOCK-OUT HOLES HAVE BEEN PUNCTURED
3. MISSING ORIGINAL PACKAGING MATERIAL AND/OR PARTS
IMPORTANT SAFETY INSTRUCTIONS

- PLEASE READ THIS SECTION CAREFULLY BEFORE INSTALLATION -

⚠️ WARNING: TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK OR PERSONAL INJURY, OBSERVE THE FOLLOWING:

1) Installation and electrical wiring must be done by qualified professionals and in accordance with all applicable codes and standards, including fire-rated construction.
2) When cutting or drilling into wall or ceiling, be careful not to damage electrical wiring or other hidden utilities.
3) Ducted fans must be vented to the outside.
   a) Before servicing or cleaning unit, open the light panel and SWITCH POWER OFF AT SERVICE PANEL.
   b) Clean all grease laden surfaces frequently. To reduce the risk of fire and to disperse air properly, make sure to vent air outside. DO NOT vent exhaust air into wall spaces, attics, crawl spaces or garages.

NOTE - This warranty is void without an authorized agent's receipt or if unit is damaged due to misuse, poor installation, improper use, mistreatment, negligence or any other circumstances beyond the control of KOBE RANGE HOODS authorized agents. Any repair carried out without the supervision of KOBE RANGE HOODS authorized agents will automatically void the warranty.

- KOBE RANGE HOODS will not be held responsible for any damages to personal property or real estate or any bodily injuries whether caused directly or indirectly by the range hood.

⚠️ WARNING: TO REDUCE THE RISK OF PERSONAL INJURY IN THE EVENT OF A RANGE TOP GREASE FIRE:

- Keep all fan, baffle/spacer/filter/oil tunnel/oil container and grease-laden surfaces clean. Grease should not be allowed to accumulate on fan, baffle/spacer/filter/oil tunnel/oil container.
- Always turn hood ON when cooking.
- Use high settings on cooking range ONLY when necessary.
- Do not leave cooking range unattended when cooking.
- Always use cookware and utensils appropriate for the type and amount of food prepared.
- Use this unit only in the manner intended by the manufacturer.
- Before servicing, switch power off at service panel and lock service panel (if possible) to prevent power from switching on accidentally.
- Clean ventilating fan frequently.
What to Do In The Event Of a Range Top Grease Fire

- SMOTHER FLAMES with a tight fitting lid, cookie sheet, or metal tray, and then turn off the burner. KEEP FLAMMABLE OR COMBUSTIBLE MATERIAL AWAY FROM FLAMES. If the flames do not go out immediately, EVACUATE THE AREA AND CALL THE FIRE DEPARTMENT or 911.
- NEVER PICK UP A BURNING PAN - You May Get Burned.
- DO NOT USE WATER, including wet dishcloths or towels - a steam blast will result.
- Use an extinguisher ONLY if:
  a) You have a Class A, B, C extinguisher and know how to operate it.
  b) The fire is small and contained in the area where it started.
  c) The fire department has been called.
  d) You can fight the fire with your back to an exit.

What to Do If You Smell Gas

- Extinguish any open flame.
- Do not try to turn on the lights or any type of appliance.
- Open all doors and windows to disperse the gas. If you still smell gas, call the Gas Company and Fire Department right away.

⚠️ CAUTION ⚠️

1) For general ventilation use only. Do not use to exhaust hazardous or explosive materials and vapors.
2) To reduce the risk of fire, use only metal ductwork. Sufficient air is needed for proper combustion and exhausting of gases through the flue (chimney) to prevent back drafting.
3) Follow the heating equipment manufacturer's guideline and safety standards such as those published by the National Fire Protection Association (NFPA), and the American Society for Heating, Refrigeration and Air Conditioning Engineers (ASHRAE), and code authorities.
4) Activating any switch on may cause ignition or an explosion.
5) Due to the size and weight of this hood, installation by 2 persons is recommended.

⚠️ WARNING ⚠️

ELECTRICAL SHOCK HAZARD – Can result in serious injury or death. Disconnect appliance from electric power before servicing. If equipped, the fluorescent light bulb contains small amounts of mercury, which must be recycled or disposed of according to Local, State, and Federal Codes.
## COMPONENTS OF PACKAGE

(Must keep all material for returns or refunds)

INSTALLATION

PLEASE READ ENTIRE INSTRUCTIONS BEFORE PROCEEDING

Calculation before Installation

To calculate installation, please refer to TABLE 1. (All calculation in inches.)

| TABLE 1 |
|------------------|--------|
| A = Height of Floor to Ceiling |
| B = Height of Floor to Counter Top |
| (Standard: 36") |
| C = Preferred Height of Counter Top to Hood Bottom (Recommended 30” to 36") |
| D = Height of Hood |
| E = Height of the Hood Installation |
| [A – (B+C)] |
| F = Height of Duct Cover |
| [E – D] |

⚠ SAFETY WARNING
HOOD MAY HAVE VERY SHARP EDGES; PLEASE WEAR PROTECTIVE GLOVES IF REMOVING ANY PARTS FOR INSTALLING, CLEANING OR SERVICING.

NOTE: BE CAREFUL WHEN USING ELECTRICAL SCREWDRIVER, DAMAGE TO THE HOOD MAY OCCUR.
**Preparation before Installation**

**NOTE:** TO AVOID DAMAGE TO YOUR HOOD, PREVENT DEBRIS FROM ENTERING THE VENT OPENING.

- Decide the location of the venting pipe from the hood to the outside (Figure 1).
- A straight, short vent run will allow the hood to perform more efficiently.
- Try to avoid as many transitions, elbows, and long runs as possible. Transitions, elbows and/or long runs may reduce the performance of the hood.
- Temporarily wire the hood to test for proper operation before installing.
- Important: Peel protective film off the hood and duct covers, if any.
  - Use duct tape to seal the joints between pipe sections.

**Island Installation**

**CAUTION:** USE HAND TOOLS ONLY. DO NOT OVER TIGHTEN SCREWS. IT MAY CAUSE DAMAGE TO THE HOOD.

**CAUTION:** If moving the cooking range is necessary to install the hood, turn off the power in an electric range at the main electrical box. SHUT OFF THE GAS BEFORE MOVING A GAS RANGE. And use a protective covering to protect cooktop and/or countertop from damage.

1. Mark centerlines of cook top or range on ceiling. Use centerlines marked on ceiling to position the range hood as shown in Figure 2.
2. Cut and remove ceiling drywall. Install 2” x 4” cross framing lumber (not provided) between ceiling joists.
3. Framing should be 11-2/16” (O.C. =on center) between front and back, and 10-3/16” (O.C.) between both sides of the 2” X 4” cross framing lumber. Refer to Figure 3.
4. Finish the ceiling surface. Be sure to mark the location of the ceiling joists and cross framing lumber.
5. Cut a 6-1/2" duct opening and approximately a 1” wire access hole.
Telescopic Stack Installation

6. Adjust the telescopic stack with the screws provided to the desired height. Refer to Table 1 and Figure 4. (Lower screws must be drilled into the metal motor housing).
7. Place only the inner duct cover over the top of the telescopic stack prior to mounting to the ceiling and let it rest on the bottom flanges.
8. Align the telescopic stack to the mounting surface and secure ten hood mounting screws (not provided) into the ceiling joist and cross framing lumber. Make sure screws are driven into the ceiling at the middle of joists and cross framing lumber for maximum support and stability.

⚠️ CAUTION: MAKE SURE THE TELESCOPIC STACK IS SECURE BEFORE RELEASING.

Wiring to Power Supply

⚠️ THIS RANGE HOOD MUST BE PROPERLY GROUNDED. MAKE SURE THIS IS DONE BY QUALIFIED ELECTRICIAN IN ACCORDANCE WITH ALL APPLICABLE NATIONAL AND LOCAL ELECTRICAL CODES. BEFORE CONNECTING WIRES, SWITCH POWER OFF AT SERVICE PANEL AND LOCK SERVICE PANEL TO PREVENT POWER FROM BEING SWITCHED ON ACCIDENTALLY.

9. Route house wiring into the ceiling as close to the installation location as possible. Allow additional length of wiring to drop down from the ceiling to the electric box.
10. Connect the electrical wires according to color (green to green, white to white, and black to black) and cap with wire connectors. Green wire must be grounded to reduce risk of electric shock.

Ductwork Installation

11. Use 6” round aluminum or steel pipe (not provided) to connect to the plastic collar.
12. Slide the outer duct cover downward so that it sits properly on the hood.
13. Fasten the inner duct cover in place with 4 screws (provided). Refer to Figure 5.
14. Slide the outer duct cover up the telescopic stack, and temporarily hold or fasten in place.
Hood Installation

15. Align the hood with the telescopic stack so that the motor harness is on the same side as the control unit harness. Refer to Figure 6.
16. Fasten the hood body to the telescopic stack using 8 screws (provided). Refer to Figure 7.
17. Use 2 screws (provided) to secure the outer duct cover to the hood body. Refer to Figure 8.

⚠️ CAUTION: MAKE SURE THE HOOD IS SECURE BEFORE RELEASING.

Final Assembly

18. Install the Baffle Filters.
19. Turn power ON in control panel. Check all lights and fan operation.
20. Make sure to leave this manual for the homeowner.
OPERATION INSTRUCTIONS

Note: For best results, turn fan on prior to any preparation or cooking and keep fans running while cooking. Adjust speed as needed.

To operate the fan function
- Press button to choose from speed.
  - Q = QuietModeM speed
  - L = Low speed
  - H = High speed
- Press "OFF" to turn fan off.

To operate the light function
- Press the Light Control to turn lights on and off.
MAINTENANCE

For optimal performance, clean the range hood surface and baffles regularly.

To Clean Hood Surface

⚠️ CAUTION: NEVER USE ABRASIVE CLEANERS, PADS, OR CLOTHS.

*** Regular care will help preserve its fine appearance.
1. Use only mild soap or detergent solutions. Dry surfaces using soft cloth.
2. If hood looks splotchy (stainless steel hood), use a stainless steel cleaner to clean the surface of the hood. Avoid getting cleaning solution onto or into the control panel. Follow directions of the stainless steel cleaner. **Caution: Do not leave on too long as this may cause damage to hood finish.** Use soft towel to wipe off the cleaning solution, gently rub off any stubborn spots. Use dry soft towel to dry the hood.
3. DO NOT allow deposits to accumulate or remain on the hood.
4. DO NOT use ordinary steel wool or steel brushes. Small bits of steel may adhere to the surface and cause rusting.
5. DO NOT allow salt solutions, disinfectants, bleaches, or cleaning compounds to remain in contact with stainless steel for extended periods. Many of these compounds contain chemicals, which may be harmful. Rinse with water after exposure and wipe dry with a clean lint free cloth.

To Clean Baffle Filter/Oil Tunnel

⚠️ CAUTION: DRAIN OIL FROM BAFFLE FILTERS, SPACERS & OIL TUNNEL REGULARLY TO PREVENT OVERFLOW.

1. Remove all the baffle filters, spacers and oil tunnel.
2. Using a sponge, wash with warm soapy water. Dry completely before returning into place.
   **CAUTION: SHARP EDGES**

   *(Note: Baffle Filters are top rack dishwasher safe.)*

WARRANTY CERTIFICATE

KOBE Range Hoods (referred to herein as “we” or “us”) warrants to the original purchaser (referred to herein as “you” or “your”) all products manufactured or supplied by us to be free from defect in workmanship and materials as follows:

TWO-YEAR LIMITED WARRANTY FOR PARTS AND LABOR ON KOBE PREMIUM/BRILLIA SERIES:
For two years from the date of your original purchase invoice, we will, at our sole discretion, choose to repair or replace the product free of charge that failed due to manufacturing defects.

It is your sole responsibility to ensure the product is readily accessible for the service technician to perform repairs. The service technician will not, under any circumstance, remove, alter or modify any fixture built around and/or connected to the product to gain access to perform repairs.

During the two-year Limited Warranty period, additional charges may apply which include but are not limited to:
- Service technician travel charges if the requested service location is 30-miles out of KOBE’s authorized service area
- Parts shipping expenses
- Un-installation of defective product and Installation of replacement product

Warranty Exclusions:
This warranty does not cover, including but not limited to the following:
   a. Improper installation.
   b. Any repair, alteration, modification not authorized by KOBE.
   c. Duct alteration, modification and connection.
   d. Incorrect electric current, voltage or wiring.
   e. Normal maintenance and service required for the product.
   f. Consumable parts such as light bulbs and carbon filters.
   g. Improper usage of the product that it is not intended for, such as commercial use, outdoor use and multi-family use.
   h. Normal wear and tear.
   i. Chips, scratches or dents by abuse or misuse of the product.
   j. Damages caused by accident, fire, flood and other Acts of God.
   k. Expenses incurred for service located outside of the designated service area.
   l. Purchases from unauthorized dealers.
   m. Removal fees of defective product and Installation fees associated with replacement product.
If we determine that the warranty exclusions listed above apply or if you fail to provide all necessary documentation for warranty service, you will be responsible for all expenses associated with the requested service, including parts, labor, shipping, travelling and any other expense related to the service request.

To qualify for warranty service, you must:
1. Have the ORIGINAL proof of purchase
2. Be the ORIGINAL purchaser of the product
3. Have the model number
4. Have the serial number
5. Have a description of the nature of any defect in the product or part

Your notes:
This KOBE hood is made for use in the USA and CANADA only. We do not recommend using this hood overseas as the power supply may not be compatible and may violate the electrical code of that country. Using a KOBE hood overseas is at your own risk and will void your warranty.

Cette hotte KOBE est fabriquée pour usage aux États-Unis et au Canada seulement. Il n’est pas recommandé d’utiliser cette hotte à l’étranger puisque l’alimentation électrique pourrait ne pas être compatible et enfreindre le code de l’électricité de ce pays. L’usage de la hotte KOBE à l’étranger est à votre propre risque et la garantie sera annulée.

Esta campana de extracción KOBE ha sido fabricada para ser utilizada únicamente en EE.UU. y CANADÁ. No recomendamos la utilización de esta campana en el extranjero debido a que la fuente de energía podría no ser compatible y podría violar el código eléctrico de dicho país. Utilizar una campana KOBE en el extranjero será a su propio riesgo y anulará la garantía.
