RA02DC-24 and RA02DC-24-1 Duct Extension Installation Guide

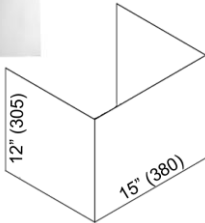

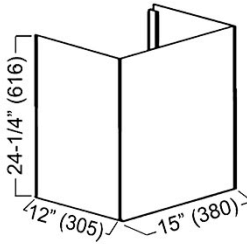

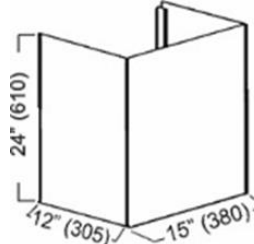

This guide is to show how to install the duct extensions on ONLY the **RA02 SQB-DC48-1** or **RAX95 SQB-DC48-1** series. For guidelines on other models, please visit www.koberangehoods.com > Customer Support > Service and Repair > Duct Covers Installation.

Applicable Models:

RA0230SQB-DC48-1, RA0236SQB-DC48-1, RA0242SQB-DC48-1, RA0248SQB-DC48-1
 RAX9530SQB-DC48-1, RAX9536SQB-DC48-1, RAX9542SQB-DC48-1, RAX9548SQB-DC48-1

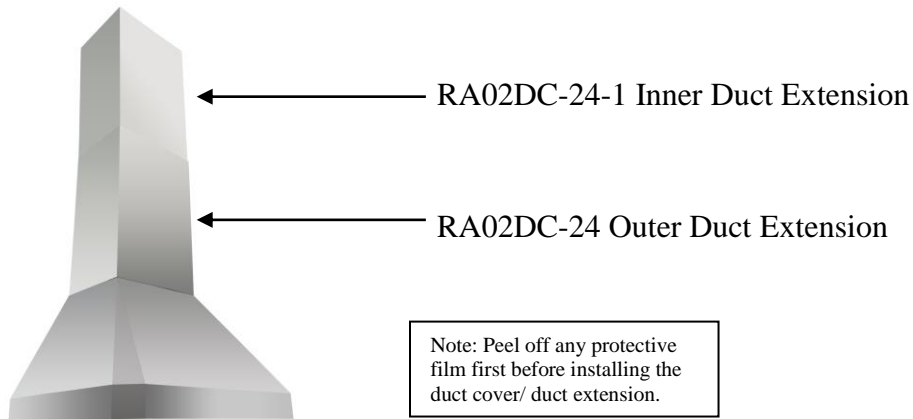

Package Components:

The models above include the following duct cover/ duct extension:

1. RA02DC-1 Original Outer Duct Cover	2. RA02DC-24-1 Inner Duct Extension	3. RA02DC-24 Outer Duct Extension
Included in <i>all</i> RA02 and RAX95 models (inside hood body)	Included in RA02 and RAX95 models ending in DC24-1 or DC48-1 (separate box)	Included in RA02 and RAX95 models ending in DC48-1 only (separate box)
 <p>Attach duct cover mounting bracket here.</p> 	 <p>↑ Towards the ceiling</p> <p>RA02DC-24-1 Inner Duct Extension</p> <p>1 piece only</p> 	 <p>RA02DC-24 Outer Duct Extension</p> <p>1 piece only</p> <p>Connect to the hood body</p> 

For all models listed in the "Applicable Models" at the top of this page, do the following:

DISCARD the RA02DC-1	ATTACH to the WALL	CONNECT to the HOOD BODY
The RA02DC-1 is not needed for these models.	RA02DC-24-1 inner duct extension will be placed <i>inside</i> the RA02DC-24 outer duct extension by sliding it in. The RA02DC-24-1 has two holes at the top for using the duct cover mounting bracket for mounting to the wall.	RA02DC-24 outer duct extension will be attached to the hood body. It has 4 holes at the bottom (2 on each side); this is where the screws will be attached to and connected to the hood body.

Note: Peel off any protective film first before installing the duct cover/ duct extension.
