

## KOBE Range Hoods

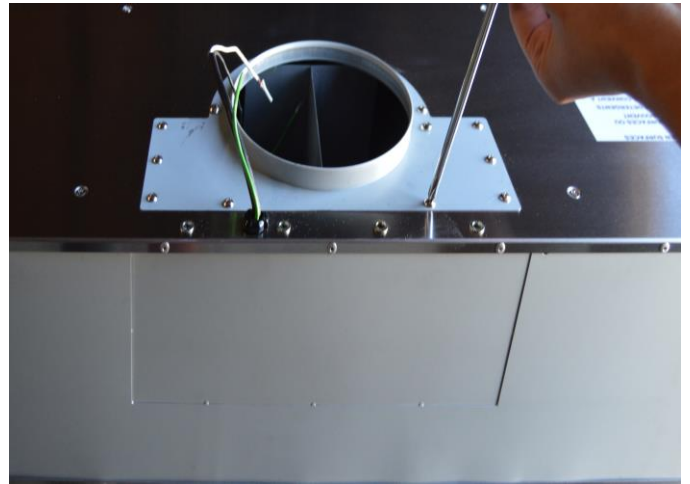

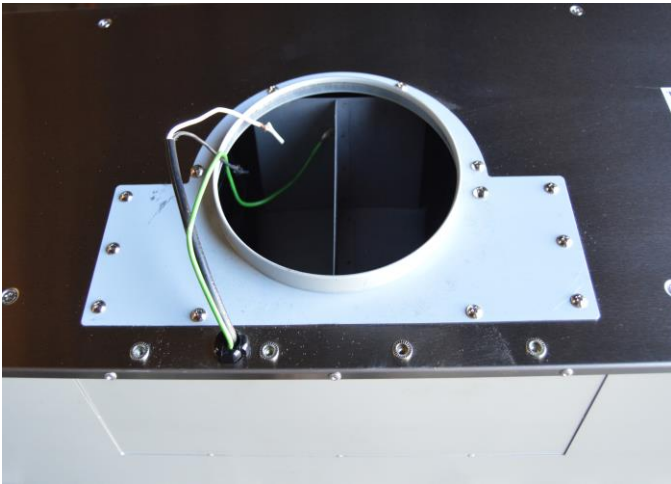

*"So Quiet...You Won't Believe It's On!"*

### Top Exhaust Guide

*This guide is for applicable Kobe range hoods (see page 3 for list of series) that have the top round exhaust, top 3-1/4" x 10" rectangular exhaust, and a rear 3-1/4" x 10" rectangular exhaust. Please use this guide if you would like to use the top rectangular exhaust instead of the top round or rear rectangular exhausts.*

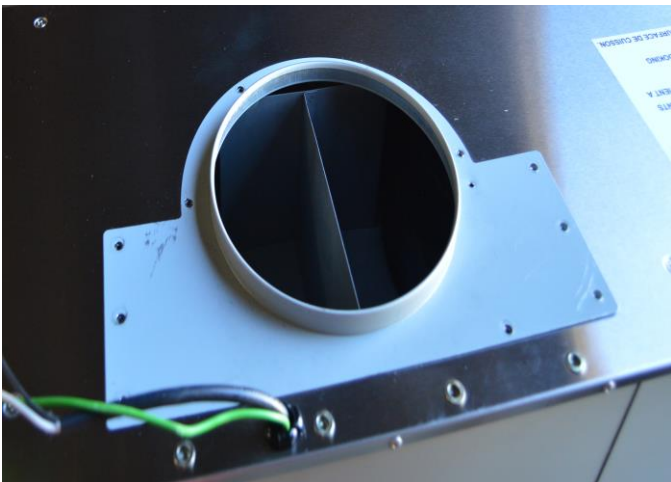

#### **Step 1:**

The top part of the range hood has an open, round exhaust and a covered 3-1/4" x 10" rectangular exhaust (which is partly occupied by the open, round exhaust). Unscrew the top vent cover.

#### **Step 2:**

After all screws have been removed, take off the top vent cover.

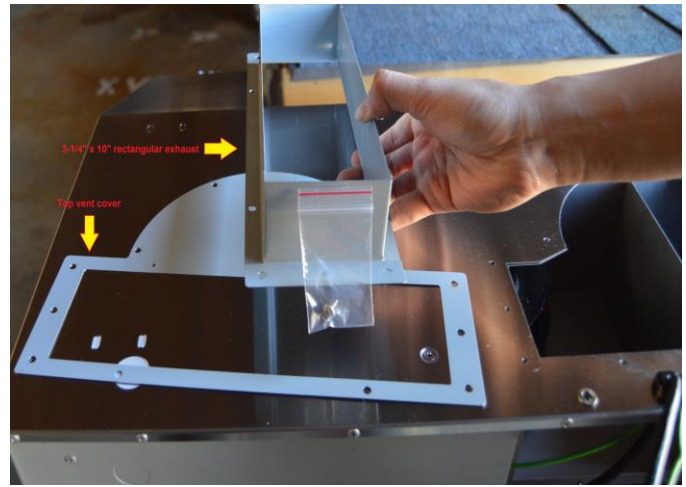

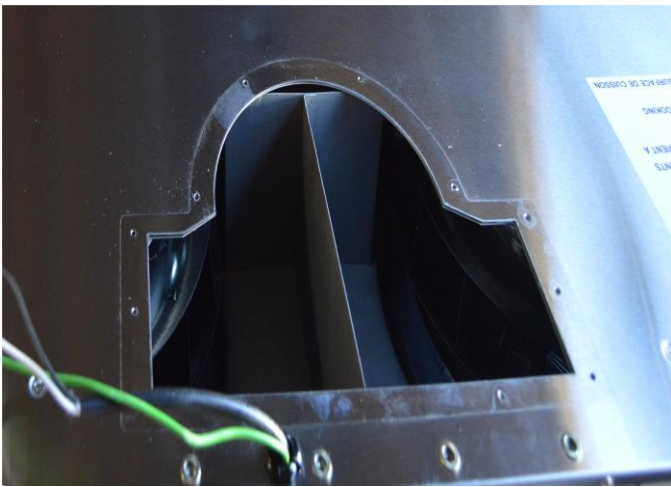

## KOBE Range Hoods

*"So Quiet...You Won't Believe It's On!"*

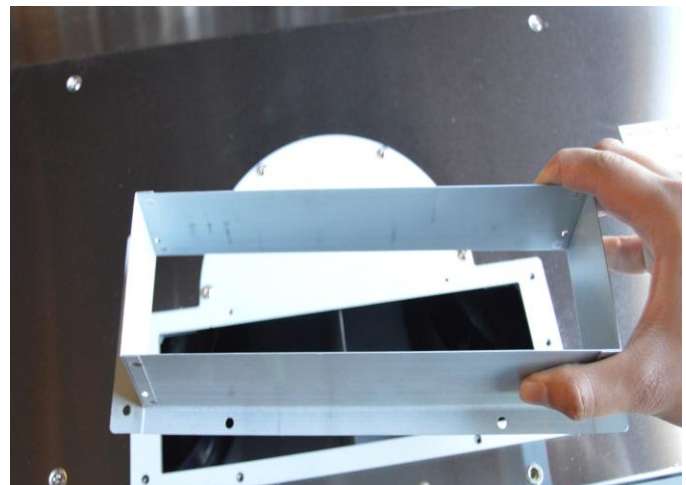

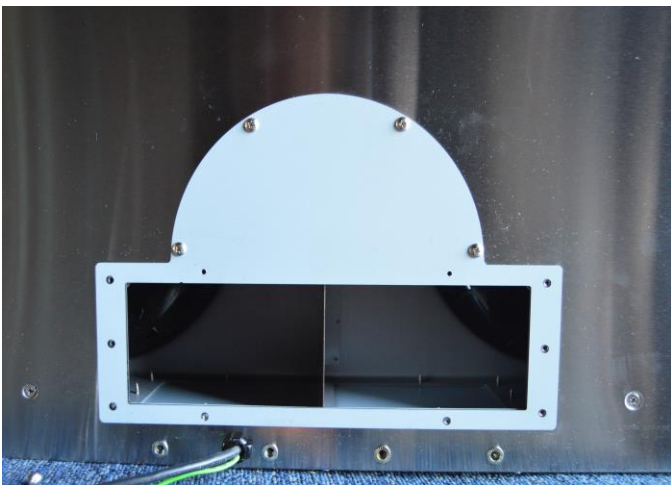

### Step 3:

At this point, the top exhaust is open. Find the second top vent cover (has a covering for the half-circle part) and the 3-1/4" x 10" rectangular exhaust that were provided in the carton. Note that there is a single screw taped on the 3-1/4" x 10" rectangular exhaust. This screw will be used to attach the 3-1/4" x 10" rectangular exhaust on the top exhaust—a total of 14 screws, all of which are provided, will be needed. Note: Top Vent Cover (TVC20) must be purchased separately for some models.

### Step 4:

Place the top vent cover on the top exhaust to cover the half part of the top round exhaust. Next, place the 3-1/4" x 10" rectangular exhaust on top of the top vent cover.

### Step 5:

Screw the 3-1/4" x 10" rectangular exhaust onto the top exhaust. As shown in the picture on the right, the half-circle will be covered and only the rectangular exhaust will have an opening for connecting the duct. Note that the duct is not included with the range hood.

Applicable Series:

#### Premium

CH22 SQ-1  
CH22 SQB-1  
CH27 SQB-1  
CH77 SQB-1  
CH91 SQB-1

#### Brillia

CHX20 SQB-1  
CHX22 SQB-1  
CHX38 SQB-2  
CHX38 SQBD-3  
CHX79 SQB-1  
CHX91 SQB-1
